

Step 1: Create a Google Account.

Note: If you are using a Gmail address to access the ListServ, you already have a Google Account. Go to Step #3.

Click on the following link: <https://accounts.google.com/NewAccount>. You will see a screen like this. Enter your email and create a password for your Google account.

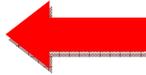

Step 2: Verify your email address.

You will receive an email like this. Click on the link.

Welcome to Google Accounts. To activate your account and verify your email address, please click the following link:

<https://accounts.google.com/VE?c=xxxxxxx>

NOTE Please print this page for your records. You'll need your verification link if you lose access to your account (for example, if you forget your username or password).

If you've received this mail in error, it's likely that another user entered your email address while trying to create an account for a different email address. If you don't click the verification link, the account won't be activated.

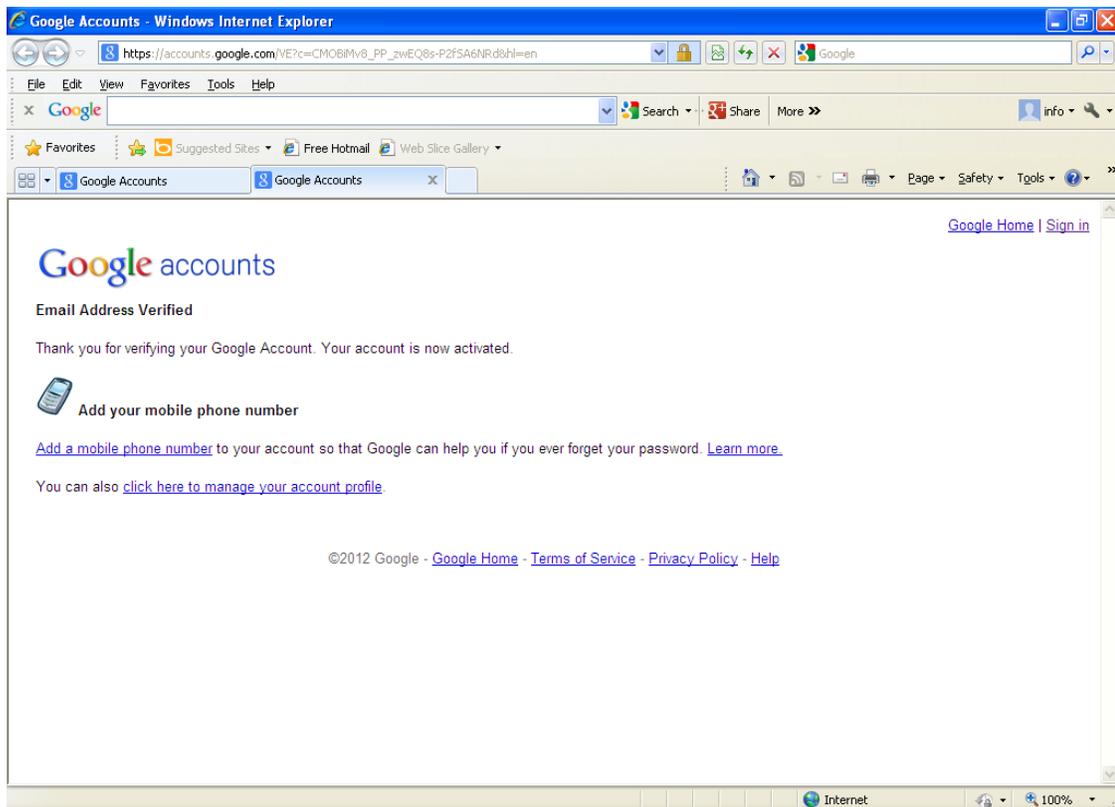

If you didn't request this email, but you decide to use this account, or delete it, you'll first need to reset the account password by entering your email address at <https://accounts.google.com/RecoverAccount>.

If clicking the link above does not work, copy and paste the URL in a new browser window instead.

Sincerely,
The Google Accounts Team
