- 

**Aspirations for ACOPA**

Please indicate what you will contribute as an ACOPA leader

Work in the retirement plan industry is truly a professional endeavor as we provide essential guidance to plan sponsors. ACOPA membership is unique in that we are here to help one another regardless of employer or level of experience. I immediately noticed the comradery within ACOPA when first introduced to the organization. This type of mentorship and open communication builds relationships and assists practitioners in day to day operations. As an ACOPA leader, I will work to maintain this characteristic of ACOPA. I will also support growth in membership and actively encourage individual professional development through volunteer opportunities.
