**Aspirations for ACOPA**

Please indicate what you will contribute as an ACOPA leader

I would like to work with other leaders of ACOPA to continue the professional development of the actuarial membership. I place a high value on my membership and association with the other members of ACOPA. I would work to make sure the organization continues to provide that same value to others. I would like to see continued development of the outreach to the less involved members as well increasing membership.
