

ABC Company 401(k) Plan

Direct Participant Expenses

As of January 1, 2007

The following estimated expenses may be charged to your account, depending on the investments you select, the types of services received by the plan and the types of transactions you request. Fees are just one issue to consider when selecting an investment option, and you should consult other information provided by the plan sponsor regarding plan investment options before making a decision.

I. Investment Expenses - The investments offered by the plan have related expenses. The amounts listed below are the annual percentage that will be charged based on the amount you placed in the particular investment. A portion of the fee will be charged if you change your investments during the year. The expense ratio reflects the percentage of fund assets that are used for administrative, management, advertising and promotion (12b-1 fees), and all other expenses and directly affect the returns of your investment options. It does not include sales loads or brokerage commissions.

EXAMPLE: If the Expense Ratio is 0.5% and you placed \$1,000 in that investment for one year, you would pay \$5 for these types of expenses for that investment. Additional expenses, such as a wrap fee, redemption fee and/or surrender charge may also apply.

¹ May be imposed by provider as a result of changing your investments multiple times in a given period. See the investment provider's redemption fee policy for additional information.

² May be imposed if you sell or withdraw money from the investment within a given number of years after you invest. This fee may be reduced based on the length of time your money has been invested. You should consult your plan sponsor for more information before engaging in any transactions with respect to this investment.

³ Wrap fees and investment advisory fees are charged at the plan level. Some plans use expense reimbursements, such as revenue sharing, to offset these costs.
